Hi

2nd VP

Lion "Ash" Ashinhurst

I am writing this report on a wheel chair ramp we recently constructed at the request of one of our members, this is the largest ramp constructed by our members to date.

We took a letter to Lowe's requesting any help on materials to be used to construct this ramp and I'm glad to say they gave us a great discount which was being paid by the resident receiving the ramp. We delivered most of the material to the house where we were to construct it and the rest we delivered to my house where I constructed the frames to be taken to work site for assembly.

We have a total of 110 man-hours in the construction of this ramp. Which included the following: Paul Ravilious, Fred Moorland, Wally Haller, Bob Schaulch, Don Stewart, Jim Stone and Sam Mooney? Thanks to all that helped, because without you we would not be successful.
